Over the past 30+ years, technology has allowed ISI to make the presentation of citation searching increasingly accessible to users of our products. Citation indexes or databases enable you to identify and search for references to previously published works cited by authors in their bibliographies. The ability to create alerts and receive notification of new citations can save time and effort for researchers looking to stay up-to-date with their field of interest.

The Web of Science Core Collection databases (part of ISI Web of Knowledge) is today's premier research platform for information in the sciences, technology, and social sciences. You can create a Citation Report for any author in this database that will include statistical analysis data mining journal impact factor.
